Learning Opportunity

The Sheltered Instruction Observation Protocol (SIOP) Model is designed to help teachers plan and deliver lessons that allow English as an additional language learners to simultaneously acquire academic knowledge as they develop language proficiency. SIOP is not a program, but rather a framework. Join Bev Smith for this introductory series to the SIOP framework and its 8 components to support EAL students in accessing the curriculum in a comprehensible way.

There will be a blend between theory and interaction throughout the session. You will benefit most by attending live. The topics will be:

- The principles of Second Language Acquisition Theory, an overview of SIOP, Lesson Preparation Feature with a focus on writing content and language objectives
- Building Background and Comprehensible Input features
- Strategies and Interactions features
- Practice and Application, Lesson Delivery, Review and Assessment features, as well as a discussion of how to get started

Presenters

Bev Smith

Bev Smith has been a teacher for the past 30 years. She spent 27 of those as a classroom teacher before moving into the role of Literacy Lead Teacher for Lethbridge School District. Bev taught all elementary school grades. In her current position she works with elementary and middle school teachers and students. She obtained her Bachelor of Education degree from the University of Saskatchewan in 1986, and completed her Master of Education degree at the University of Lethbridge in 2012 with a literacy focus.

Registration Notes

Zoom link will be sent out in registration confirmation email. Please make sure to check your junk/spam email.

Recording will be available to participants for 30 days and sent out after the session.
