Program

The results are in from the 2017 Alberta Nutrition Report Card on Food Environments for Children and Youth

Our grade: C

We CAN and we NEED to do better.

How does this affect schools?

Are you looking for tools to support your snack, breakfast or lunch program?

Are you looking for nutrition resources for your classroom or school environment?

Then join us, as Dr. Kim Raine, lead researcher on Alberta's Nutrition Report Card presents her findings and recommendations on how we support healthy food environments in schools and communities.

Participants will:

- Access tools and resources that will improve school nutrition
- Understand how a healthy food environment positively affects student learning and mental health
- Share and learn with other schools on ways to positively impact food environments

Presenters

Dr. Kim Raine

Dr. Raine is a Professor and the Associate Dean (Research) of the School of Public Health, University of Alberta, Edmonton. She is also a fellow of the Canadian Academy of Health Sciences and a Registered Dietitian.

Dr. Raine's research program, POWER (Promoting Optimal Weights through Ecological Research), explores the social determinants of the obesity epidemic, and policy and community-based population interventions to promote healthy weights and prevent chronic diseases. She is a member of the Scientific Review Committee for the Healthy Kids Community Challenge.
