Program

Are you interested in embedding a creative element to mathematics teaching and learning? In this session we will explore mathematical thinking through collaborative problem solving with the goal of developing an appreciation for the study of mathematics that you can bring back to your class. We will explore mathematical concepts through alternate perspectives and examine the role of analog and digital resources.

Presenters

Suhayl Patel

Registration Notes

Lunch and refreshments are provided. Please let us know about any dietary restrictions and we will do our best to accommodate you.
